

400

SERIES

ALL THREAD FIBERGLASS FORM TIES

DESCRIPTION

The Sigma 400 Series fiberglass form tie is an original thread form that maximizes the properties of both fiberglass and steel to create the strongest fiberglass threaded rod on the market today.

SAFE WORKING LOADS (2:1)

Standard Nut: 3,000 lbs
Standard & Short Nut: 4,000 lbs
Double Standard: 5,000 lbs

12' Standard lengths
0.400" Diameter

400 SERIES BENEFITS

There are many benefits to using Sigma 400 Series on your next forming project, including:

- Cut custom length ties on the jobsite
- Eliminate unknown working loads with pencil 'slick' rod forming
- Custom threads for high working loads
- No patching - easy finish!
- Non-corrosive
- Battered wall forming is a breeze
- Drill and bond epoxy for single-side forming
- Hydrophilic water stops for water tight ties
- Rebar hooks for large mat foundation pours
- Couplers available
